K&W Products, Inc. RL42 Big Roll Harvester
is built to use with a 45hp tractor *not requiring* front weight package.

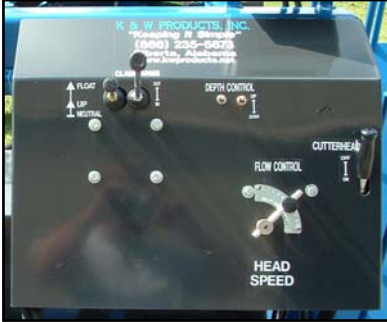

Other features include:

- Two full floating heads producing a more even harvest
- 100% self-contained hydraulic systems (*no need for tractor remotes*)
- Gear reduction, two-stage 540 PTO pump allowing ample hydraulic flow
- Dual rear-mounted toggle-switches operate each head depth control individually
- Rear-mounted hydraulic levers enable ground man to clamp tube
- Built with production and longevity in mind
- Optional Electric Counter (*counts preset footage, signals operator to stop by sounding horn*)

The RL42 is the safest, Most affordable ground driven 42" roll harvester produced. Visit us at www.kwproducts.net to view a video of our harvester in action. Call us at our toll free number **(866) 235-5673** for pricing or any more information you may need.

Gear reduction hydraulic pump allows for more flow at lower RPM.

Rear hydraulic panel provides the ground operator with controls to adjust cutter head speed, clamping of tubes, and adjustment to thickness of cut.

Electric depth control changes thickness of cut on the fly.

Full floating heads maintain a more even harvest on uneven field conditions.
