ROLL FASTER WITH ROLLMASTER

NOW AUTOMATED!

Now with the latest innovative technology, the Automated RollMaster will give you results with new levels of productivity, quality, and competitiveness in the turf industry.

- Easy Operation
- Save on Labor
- Reduce Netting Cost
- Eliminate Sod Staples

To remain competitive, operating with less cost is a must! The RollMaster will increase your field productivity by cutting your production time in half! The RollMaster can produce 30 rolls in 30 minutes depending on your sod conditions.

Available in 30" (1-30), 42" (2-21) or 48" (2-24)
Cut - Automated or Standard Series

Options: Side discharge cross conveyor.
